

Department Routing Rules

Document ID: RTE-RUL-14 | Version: 2.0 | Status: Active | Effective date: 2026-01-01 | Expiry date: none | Owner: Management Escalations

1 Purpose

These rules define which Lumora Home Technologies department owns each complaint and which departments support it. Consistent routing ensures that every complaint reaches the team with the authority and expertise to resolve it, and that complaints with several issues involve every department that has an action to complete.

2 Routing Principles

The primary department owns the case; supporting departments contribute actions for secondary issues. Routing is decided by the subcategory of the primary issue (CHP-POL-01 section 3.2) using the routing table in section 3. The primary department is accountable for customer communication, the service level and closure; supporting departments complete their actions and record them in the case. Routing never depends on the customer type or on the tone of the complaint. The Lumora departments are:

Code	Department	Responsibilities
DEPT-BIL	Billing Operations	Charges, duplicate/incorrect billing, subscription billing, refund reconciliation and chargebacks.
DEPT-TEC	Technical Support	Device troubleshooting, connectivity, app/firmware problems, set-up and service outages.
DEPT-LOG	Logistics Support	Shipping, delivery delays, lost packages, wrong items and fulfilment errors (including missing parts).
DEPT-RET	Returns & Refunds	Returns, refund eligibility, refund processing, damaged-on-arrival replacements.
DEPT-WAR	Warranty Services	Warranty claims, denials, appeals and Care+ protection-plan claims.
DEPT-CRL	Customer Relations	Service quality, staff conduct, installation service quality and customer-experience recovery.
DEPT-SEC	Account Security	Login recovery, unauthorized access, account takeover, smart-lock security incidents and fraud.
DEPT-CMP	Compliance & Privacy	Privacy incidents, data-rights requests, consent, legal threats and regulatory matters.
DEPT-SAF	Product Safety	Overheating, fire, electrical hazards, injuries, recalls and hazardous-product collection.
DEPT-MGT	Management Escalations	Critical management escalations, high-value disputes and cross-department failures.

3 Routing Table

The table assigns a primary department, and any standing supporting departments, to every subcategory of the approved taxonomy. Additional supporting departments are added under section 4. Changes to this table are approved by Management Escalations and take effect when a new version of this document is published.

Rule ID	Category	Subcategory	Primary department	Supporting departments
RTE-001	Product Defect	PRD-DOA Damaged on Arrival	Returns & Refunds (DEPT-RET)	Logistics Support (DEPT-LOG)
RTE-002	Product Defect	PRD-MAL Product Malfunction	Technical Support (DEPT-TEC)	None
RTE-003	Product Defect	PRD-MIS Missing Parts	Logistics Support (DEPT-LOG)	None
RTE-004	Billing	BIL-DUP Duplicate Charge	Billing Operations (DEPT-BIL)	None
RTE-005	Billing	BIL-INC Incorrect Charge	Billing Operations (DEPT-BIL)	None
RTE-006	Billing	BIL-RFM Refund Missing	Billing Operations (DEPT-BIL)	Returns & Refunds (DEPT-RET)
RTE-007	Billing	BIL-SUB Subscription Renewal	Billing Operations (DEPT-BIL)	None
RTE-008	Billing	BIL-CAN Cancellation Not Honored	Billing Operations (DEPT-BIL)	None
RTE-009	Delivery	DEL-DLY Delayed Delivery	Logistics Support (DEPT-LOG)	None
RTE-010	Delivery	DEL-LST Lost Package	Logistics Support (DEPT-LOG)	None
RTE-011	Delivery	DEL-WRG Wrong Item Delivered	Logistics Support (DEPT-LOG)	Returns & Refunds (DEPT-RET)
RTE-012	Refund	REF-REQ Refund Request	Returns & Refunds (DEPT-RET)	None
RTE-013	Refund	REF-DLY Refund Delay	Returns & Refunds (DEPT-RET)	Billing Operations (DEPT-BIL)
RTE-014	Refund	REF-PAR Partial Refund Dispute	Returns & Refunds (DEPT-RET)	None
RTE-015	Account	ACC-LGN Login Problem	Account Security (DEPT-SEC)	None
RTE-016	Account	ACC-UNA Unauthorized Account Access	Account Security (DEPT-SEC)	None
RTE-017	Account	ACC-UPD Account Update Issue	Technical Support (DEPT-TEC)	None
RTE-018	Technical Support	TEC-CON Connectivity Issue	Technical Support (DEPT-TEC)	None
RTE-019	Technical Support	TEC-APP App or Software Issue	Technical Support (DEPT-TEC)	None
RTE-020	Technical Support	TEC-SET Setup Issue	Technical Support (DEPT-TEC)	None
RTE-021	Service Quality	SVC-SUP Poor Support Experience	Customer Relations (DEPT-CRL)	None

Rule ID	Category	Subcategory	Primary department	Supporting departments
RTE-022	Service Quality	SVC-INS Installation Service Quality	Customer Relations (DEPT-CRL)	Technical Support (DEPT-TEC)
RTE-023	Service Quality	SVC-OUT Service Outage	Technical Support (DEPT-TEC)	Billing Operations (DEPT-BIL)
RTE-024	Warranty	WAR-CLM Warranty Claim	Warranty Services (DEPT-WAR)	None
RTE-025	Warranty	WAR-DEN Warranty Denial Dispute	Warranty Services (DEPT-WAR)	None
RTE-026	Warranty	WAR-CPL Care+ Coverage Issue	Warranty Services (DEPT-WAR)	None
RTE-027	Privacy	PRV-BRC Data Exposure	Compliance & Privacy (DEPT-CMP)	Account Security (DEPT-SEC)
RTE-028	Privacy	PRV-CON Consent and Marketing	Compliance & Privacy (DEPT-CMP)	None
RTE-029	Privacy	PRV-DSR Data Rights Request	Compliance & Privacy (DEPT-CMP)	None
RTE-030	Safety	SAF-OVH Overheating or Fire Hazard	Product Safety (DEPT-SAF)	None
RTE-031	Safety	SAF-ELC Electrical Hazard	Product Safety (DEPT-SAF)	None
RTE-032	Safety	SAF-INJ Injury Incident	Product Safety (DEPT-SAF)	Compliance & Privacy (DEPT-CMP)
RTE-033	Staff Behavior	STF-RUD Rude or Unprofessional Staff	Customer Relations (DEPT-CRL)	None
RTE-034	Staff Behavior	STF-MIS Technician Misconduct	Customer Relations (DEPT-CRL)	Management Escalations (DEPT-MGT)
RTE-035	Staff Behavior	STF-MIN Misinformation by Staff	Customer Relations (DEPT-CRL)	None

4 Multi-Department Routing

The signals below add supporting departments to those listed in the routing table. A department is added only once, even when several signals apply, and a supporting department never replaces the primary department. A safety signal - a fire, overheating, an electrical hazard or an injury - in a complaint outside the Safety category adds Product Safety as a supporting department.

4.1 Secondary Issues

Each secondary issue adds its primary department as a supporting department. The primary department of a secondary issue is found by applying the routing table in section 3 to the subcategory of that issue. When that department is already the primary department of the case, it is not added again. The supporting department completes the actions required for its issue and records them in the case.

4.2 Privacy and Legal Signals

Privacy signals and legal threats add Compliance & Privacy as a supporting department. Privacy signals include any indication that personal data or footage may have been exposed or shared without consent. Legal threats include references to lawyers, courts or regulators. These signals also trigger Compliance Review under ESC-SOP-12 sections 4.3 and 4.4.

4.3 Critical Escalations

Critical Management Escalations add Management Escalations as a supporting department. This applies whenever a complaint is escalated to the Critical Management Escalation level under ESC-SOP-12 section 3.6, so that senior management can coordinate the response across all departments involved. Management Escalations records its decisions in the case and tells the primary department which actions it requires.

4.4 Security Signals

Security signals add Account Security as a supporting department. Security signals include unauthorised account access, account takeover, fraudulent payments and unexplained smart-lock events reported in a complaint that belongs to another category. Account Security then applies the containment steps in SEC-POL-09 section 4.

5 Routing Precedence

When the primary issue is unclear, precedence is Safety, then Security, then Privacy, then Legal, then Billing, then Product Defect, then Delivery, then Warranty, then all other categories. In this order, Security means unauthorised account access (ACC-UNA) and Legal means a legal threat in the complaint.

Root-cause issues outrank the refund consequences they cause: a product that arrived damaged and whose refund has not been processed has the primary issue Damaged on Arrival and the secondary issue Refund Delay. The issue with the highest precedence becomes the primary issue and decides the primary department; the other issues become secondary issues and add supporting departments under section 4.1.
